INJURED IN A FIGHT

LON LYLE KNOCKED UNCONSCIOUS BY FRENCH BROWN.

ENCOUNTER IS NEAR B. J.

Brown In Jail Awaiting Result of Lyle's Injury on Head, Inflicted With Whiskey Bottle.

Lon Lyle, about 30 years old, is lying unconscious at St. Francis hospital with a severely bruised head, and French Brown is in the county jail, where he was brought by Sheriff John F. Dowden, as a result of an encounter which took place about one mile from Burlington Junction between 6 and 8 o'clock last night.

Brown, in a cell in the county jail refused to talk of the circumstances attending the "scuffle" or quarrel or whatever it was, and Lyle has been unable to tell his side of the story. Besides there were only two witnesses, Mr. and Mrs. Earl Walker of near Burlington Junction, who were too far off to hear any words that were spoken.

The two men left Burlington Junction in the Lyle car and at some distance from the town, left the car and started to walk. A scuffle ensued directly in front of the Walker place, during which Lyle fell to the ground, receiving a blow behind the ear. Dr. Hipdman of Burlington Junction was called to the scene and Lyle was brought to town. Shartly afterward, an ambulance from Maryville was called and the injured man was taken to St. Francis hospital. At 3 o'clock this afternoon he had not regained consciousness.

Sheriff Dowden went to the home of French Brown, three and one half miles north of Burlington Junction, and took Brown into custody. He will remain in jail until the extent of Lyle's injuries are known and a complaint is filed against him.

Lon Lyle is the son of Mr. and Mrs. Humphrey Lyle and lives on a farm eleven miles northwest of Maryville. He has a wife and two children, Lon William, 5 years old, and Arthur Verne, 7 months old.

Mr. and Mrs. Earl Walker, who were the witnesses of the quarrel, said that the two men left the car where the road goes down into a sort of hollow and walked up the hill together. When they came in view of the Walker home, Brown was in the lead and Lyle was following. Directly in front of the Walker land, the men met and began to quarrel. The Walkers say that Brown struck Lyle over the head with a whiskey bottle. Brown then called to Mr. Walker to come down and when he arrived, he said, "Isn't this awful? And he was a good friend of mine, too."

Reports circulated freely today that the men had been drinking were unconfirmed by the eye-witnesses of the quarrel.

Late reports from the hospital are to the effect that Lyle is not seriously injured.

ASKS FOR A DIVORCE

Mrs. Estella Clemmons Seeks Separation From Man Arrested for Wife Abandonment and Pandering.

Alleging cruelty, abandonment and adultery, Estella Clemmons of Guilford filed suit for divorce in the circuit clerk's office today, against George Clemmons, who is now in jail, charged with pandering and wife abandonment.

The petition states that the couple were married in Nodaway county, February 2, 1899 and lived together until January 6, 1917. The plaintiff charges that after that time her husband abandoned her and lived with his niece, Nellie Bannister, who is now in the St. Joseph Hospital No. 2.

Mrs. Clemmons asks for a divorce and for the custody of their minor child, now 8 years old.

DECIDE ON TICKET SALE

Chautauqua Executive Committee Will Deliver Tickets to Signers By June 25—Price Up After July 10.

A meeting of the executive committee appointed by the guarantors of the Chautauqua was held at the office of Fred P. Robinson last night. The question of arranging for the disposal of the tickets was discussed. It was decided to deliver the tickets to all those who had signed for them last summer at $1.50 for the season. The delivery would be made by June 25. After July 10 the tickets will be $2.

An order has been made to Kansas City for fifty assorted tents, to be used at Normal Park by those who wish to camp during the Chautauqua. Further plans will be made from time to time.

WILL DECIDE BY SATURDAY.

County Text Book Commission Will Make Choice of Books Soon.

The county text book commission will attempt to come to a decision regarding the choice of text books for the county by Saturday. The members of the commission, Supt. Bert Cooper, Dean G. H. Colbert, and Supt. J. M. McDonald will meet with three text book men in half hour conferences this afternoon. Some contracts will be re-let and others will be renewed.

To Every Friend of Judge Conn's

We thank you for your kindness and sympathy.

OBSERVE FLAG DAY

EVERY AMERICAN SHOULD FLY THE FLAG THURSDAY.

ASK STRICT OBSERVANCE

American Flag Association Urges Public Recognition of Emblem On That Day.

Thursday has been designated as Flag Day by the American Flag association, and every American home and business place is supposed to fly the flag on that day.

The association has sent out notices to all of the cities and towns in the country asking that the observance of the Flag be particularly marked on this day. A part of their plea follows:

"In accordance with the custom for the past twenty years, the American Flag association reminds you that Thursday, June 14, 1917, will be the 140th anniversary of the adoption of the stars and stripes, as the Flag of our country. It is a genuine satisfaction that the public recognition of Flag Day as a National anniversary is each year becoming more and more general. Any reminder would seem unnecessary to secure your co-operation in securing the widest possible observance this year.

"In the past and increasingly, every year, the governors of many of the states have, by their proclamations, called public attention to the day and ordered the Flag to be displayed on all public buildings and invited their fellow citizens to celebrate the day. In this year, 1917, we find ourselves at war. The United States is at war for humanity, joining with the other democracies of the world, as also to defend itself in the exercise of its own national rights. Our soldiers and sailors, on the high seas and on foreign lands, allied with all the democracies of the world, are engaged in war with the only remaining despotic governments of the world, insisting upon the rights which belong to the nations and defending our country and our allies against the only remaining despotisms which yet survive the progress of civilization. This year, especially, it behooves us to emphasize the liberty for which our flag stands."

WILL AID FRENCH CHILDREN

National Organization D. A. R. Is Pledged to Provide for 2,000 War Orphans by Means of Tag Sale.

The money obtained by the members of the D. A. R. by the sale of tags on Flag Day, June 14, will be devoted to the relief of the French war orphans. The national organization has received a list of 2,000 French children with addresses and will make an effort to provide for this number by means of the money received on Tag Day.

Mrs. Charles T. Bell, regent of the D. A. R. in Maryville received the following appeal from the national organization, urging the aid of the Maryville chapter in assisting the children:

"No need to paint in vivid colors this picture of France's need of help for her orphan children. No need with eloquence of tongue or pen to echo the cry of these children of France.

"The government of France has proclaimed them its wards, but has been unable on account of its pressing military demands, to make adequate appropriations for their relief. The fathers of these children have fallen in the trenches, or at the front mowed down in charges unparalleled in the annals of war for bravery and heroism. The valor which hurled back the legions of Germany—enroute to Paris for the conquest of the world — our own country a shining mark — is immortal. Future ages will write the Iliad of the Marne and of Flanders. The chivalry of France, springing to arms, dying, gasping in agony from poisoned gases, burnt with liquid fire, slaughtered by every inhuman method the savagery of the beast, reinforced by the devilish ingenuity of man, could invent and inflict."

Springfield, June 12. — Fourteen grim men visited the newly made grave of "Buddy Keets," this morning and took solemn oaths that they would avenge the murder of the baby.

MERCHANTS INVITED

ALL WILL BE ASKED TO MAKE TRADE WEEK SUCCESS.

WILL PLEDGE A REBATE

Every Person Will Receive So Much A Mile For Their Trip to Maryville At That Time.

Every merchant in Maryville will be given an invitation to co-operate to make Co-operative Week, June 23 to June 30, the very biggest success. It will be a festival of bargains for men, women and children.

The committee in charge of the Trade Event is composed of H. L. Raines, William Montgomery and J. B. Cummins. Although the Maryville Commercial Club is supervising, every merchant, whether a member of the Club or not, may participate. An agreement to follow the plan will be circulated by the committee.

Publicity will be given to Trade Week entirely by the newspapers. The merchants will not be compelled to advertise in both papers; or, for that matter, in either paper, but it is essential for the success of the proposition that those who have goods to offer present them to the public in the best manner possible. In other words, the merchant may advertise as he pleases, the fact that the affair is a Commercial Club enterprise making no restrictions. The only thing asked by those in charge is that the merchants make every effort to put their goods before the public in attractive displays and by special inducements.

As for the customer, the time set for trade week, together with the inducements for trading at this particular time ought to draw people from all over the county and from the surrounding counties. Thus the buyer will have an opportunity to visit friends and relatives in Maryville while taking advantage of the fare refund and the special bargains offered by the stores.

The merchants will pledge themselves to give a rebate of so much a mile to every person who buys merchandise. Attractive cards will be printed with the names of the merchants on them. When the customer has made his purchases he hands his card to the merchant, who sets down the sum spent. When all the purchases have been made the card is taken to the Commercial Club rooms, the sums on the card are totaled, and a rebate is given according to the number of miles traveled.

It is not necessary to come on the train in order to get the benefit of the refund. Any kind of conveyance will be considered, or else the person can walk. The postoffice address is taken, the number of miles from Maryville is calculated and the refund is made.

The idea of trade week will be taken up enthusiastically throughout the country, because of the time at which it is to be held, and also because of the numerous bargains that will be offered by the merchants who are going to get in on the sales of trade week.

RING BELLS FOR BONDS

The Women's Liberty Loan Committee Would Note Last Three Days For Liberty Loan Purchase.

Only three days more to subscribe for a liberty bond for the good of your country.

This fact will be brought before the people of Missouri in a unique way if the plans of Mrs. W. G. McAdoo, chairman of the Women's Liberty Loan committee are carried out in all the towns of the state.

Mrs. McAdoo plans to have all of the bells in each town and city rung at 9 o'clock Tuesday, Wednesday and Thursday evenings. She wants them tolled three times on Tuesday, two on Wednesday and one on Thursday, representing the numbers of days left in which to buy liberty bonds. The significance of the Liberty bells ringing in every city, town and village is to serve as a challenge to Americans of today sent down by the lovers of liberty, who signed the Declaration of Independence.

Mrs. Laura B. Enright, Supreme Oracle, and Mrs. Ella Curry, of Chillicothe, State Oracle are expected to be present.

Dinner and supper will be served by the Skidmore women.

TO INCREASE FREIGHT RATES

L. E. Mercer, Wabash Freight Agent, Says 15 Per Cent Addition Will Be Made July 1.

L. E. Mercer, traveling freight agent of the Wabash at Omaha, is calling upon the merchants of the city today in regard to the increase in freight rates which will go in effect July 1. This increase will amount to 15 per cent and Mr. Mercer says that railroad men have ascertained within the last few weeks that the 15 per cent rate increase asked for will be barely sufficient, if not, in fact, insufficient, to their present necessities.

British Enter German Trenches at Neuve Chappelle — Teutons Retaliate.

Special to The Democrat-Forum.

London, June 12.—There was intense raiding activity during the night in northern France and Belgium, the war office announced today. The British conducted a successful raid in Neuve Chappelle. The German trenches were entered and much damage was inflicted. The Germans retaliated with raiding activities near Neuve Chappelle, Armentieres and Ypres.

Paris, June 12.—Artillery thundered all night along the valley of the Aisne river and throughout the Champagne district. The war office today said heavy engagements with big guns were in progress upon California plateau on the North bank of Aisne and along the Champagne front. The artillery fighting is believed to be a prelude to infantry assaults.

MONEY NOT TIED UP.

There seems to be an idea held by some that money invested in a Liberty Loan Bond is going to be tied up for fifteen or thirty years. This belief is not warranted. Probably no property in the world outside of actual money or currency will have a wider and more ready and constant cash market than the Liberty Loan Bond.

There will be a constant demand made for them from many sources. They are good security for loans from the Federal reserve banks; courts have decided that they are legal and proper investments for trust funds; they are legal investments for insurance companies and other corporations whose investments are supervised and regulated by law; their international character (being used for an international purpose and guaranteed in part by our European allies) gives them an international status and market. They will be sought for in India, in Egypt, Japan and Russia, England and France, Italy and Austria, and in fact, wherever any Government bond has a market.

They have been truly called the premier security of the world.—Ex.

DUBINSKY BOYS PLAY

Ed and Barney Make Only Summer Appearance in "The Messenger Boy," Tonight.

Ed and Barney Dubinsky will be seen in the two roles of "Brit" and "Two Penny" respectively in their famous success, "A Messenger Boy," supported by the entire Dubinsky Stock company at the big tent tonight.

This is the only appearance of Ed and Barney during the entire summer, as neither appears in any of the Dubinsky summer road shows. So Maryville will be the only town to see these clever boys outside of going to St. Joseph, where one can see them work at the Tootle during the winter season. "A Messenger Boy" is one of those all-round plays that appeals to everyone. As usual the vaudeville specialties will be changed between the acts.

HORSEBACK; SLOW TRAVELING.

Judge George Hepburn Uses Four Hours to Get to Maryville

Judge George Hepburn who came to Maryville today to attend a meeting of the county court rode in on horseback from his farm near Hopkins. He left his home about five o'clock and arrived here four hours later. Judge Hepburn said this was a mighty slow way of traveling, as he is used to riding in his car. When Judge Hepburn was in Maryville last Monday he could not return home in his car or by train on account of the high water and he had to get home the next day as he was registrar of North Independence township. He secured a horse from his brother-in-law, George Fred Davis, and passed over the river just a short time before the big rise came. He returned the horse to Mr. Davis today.

REJECT DORMITORY BIDS

Authorities Decide to Wait Until Next Spring Before Calling Again —Four Put in Bids.

For the second time this spring the bids for the building of the new dormitory at the State Normal School were rejected. Martin Borrusch, Lincoln Bent and M. Hahn were the Maryville bidders and Charles P. Norris of St. Joseph put in a bid also.

The four bids ranged from $25,000 to $29,000 approximately. As the authorities had not contemplated spending so much money on the building, they have decided to wait until next spring and then call for bids again.

NEWS FROM ALL NORTHWEST MISSOURI

Though the lightning during one of last week's storms killed the cow he was milking and another close by, George Campbell of Spickard, has regained consciousness after remaining dazed for twelve hours and will entirely recover from his strange and severe injury.

Dollars—silver dollars—undoubtedly saved the life of Wm. Woodruff, near Cainsville as the News reports. The team with which Woodruff was plowing became entangled in the harness and when he attempted to adjust matters he was knocked down and the plow was drawn upon him. The sharp point of the plow came squarely against Woodruff's hip but was prevented from penetrating his body by several silver dollars that were in a small purse in his pocket. The plow glanced off and was drawn across the man's arm, severing one bone of the forearm and cutting a long gash.

A scarcity of school teachers appears imminent in Mercer county, according to the Princeton Post. There is a marked falling off in the number of applicants for certificates.

Several boats were used to transport men across the swollen streams in Mercer county in order that they might reach the registration points on June 5.

When a bottle of alcohol was broken in the pocket of James Vance at Unionville the liquid drenched his clothing and ran down upon the ground. Someone — just for fun — touched a match to the pool of alcohol on the ground, the flames leaped at once to the soaked clothing of Vance and quickly enveloped him. Only quick assistance saved him from a terrible death and even yet his life is in danger, says the Journal.

Raising a mushroom 9 inches high and 12 inches in circumference is an unusual and worthy accomplishment but that is the size of a mushroom which J. Arch McMaster is credited by the Hopkins Journal with having raised from his garden the other morning.

Last week Walter Garrard sold 659 bushels of corn for $1,008.25. He bought a new $75 wagon and it took just 42½ bushels of the corn to pay for it. Twenty years ago he bought at $50 wagon and to pay for it he hauled 344 bushels of corn at 16 cents a bushel. Is Mr. Garrard hollering hard times? He is not.—Sheridan Advance.

While watching the antics of a swollen stream during the storm of last week, Mrs. Miller Wilson near Bethany was knocked to the ground by a stroke of lightning. She soon recovered consciousness and was not seriously hurt. The same bolt of lightning, says the Bethany Republican, did a strange thing by ripping the shingles off a nearby roof in such a manner as to form a large and perfect letter "U."

Unusual thrills for a single day were provided the residents of Bethany on Monday of last week, says the Republican, for there occurred a dog fight, a man fight, a flood and lastly a bolt of lightning struck a woman and a barn.

A contest for the same nest is said to be going on between a guinea fowl and a quail on the John Canaday farm near Eogleville. The Bethany Republican states that when Mr. Canaday removed the straw mulching from his strawberries he piled it in small piles and that recently in one of these he found a guinea egg. The next day it contained also a quail nest and at last report there were four guinea eggs and four quail eggs in the nest and Mr. Canaday is awaiting the outcome—when quail and guinea decide to sit.

Lightning removed a faithful and generous worker from the Eagleville community last week when it killed Bob Hutchcroft. Besides six children of his own, Hutchcroft and his wife were caring for the seven children of a brother who died last fall.

Al and Si are the Gold Dust Twins of the farmer—Alfalfa and Silo on every farm.—Jewell Mayes' Brass Bullets.

Of the four persons killed by the tornado near Richmond last week three were carried more than 500 yards from the house in which they were when the storm struck, and not an armful of timber was left of the building. The path of the storm, marked terribly by desolation is about 100 yards wide, says the Richmond Missourian. At one point a 30-foot steel bridge was picked up and carried some distance. At another place a two-acre orchard was completely torn out by the roots, not one tree being left. This storm occurred on June 5 and it was on June 3 just 39 years ago that death was visited upon several persons near Richmond by a similar storm.

Though their recent bond election authorized only $35,000 of indebtedness, the Maysville school board last week let the contract for their splendid new school building at $42,467, and will probably order another bond election soon.

As soon as fully equipped with a pump the new town well at Maysville was put to a performance test. For five hours the pump was run at full speed lifting 760 gallons an hour. At that the well did not appear to have lost any of its visible supply of water so it was pronounced O. K.

Following the path of a similar storm of years ago a small tornado visited DeKalb county last week and did a great deal of damage to farm buildings, groves and orchards in the vicinity of Amity and Osborn.

That times are changing for the better no one will doubt after reading this old announcement clipped from a Holden publication of 1849: "The undersigned will sell at public outcry for cash on premises where Cook Creek crosses on the Missouri Road, the following chattels, to-wit: Nine yoke of oxen with yoke and chain; two wagons with beds; three nigger wenches; four buck niggers; three nigger boys; two prairie plows; twenty-five steel traps; one spinning wheel; loom; three fox-hounds; a lot of coon, mink, and skunk skins and a lot of other articles. Am gwine to California."

Two pigs, a year and two weeks of age, and weighing 410 pounds each, were sold at Maysville the other day by George Taylor for $154. Taylor is supported by the DeKalb County Herald in the belief that, for their age, these pigs did right well.

A camp site of 10,000 acres extent has been offered the U. S. Army by the boosters of Tarkio. That camp sites of that extent are almost impossible to secure in the thickly settled districts of the Middle West is correctly observed by the Tarkio Avalanche. An inquiry from the War Department for a location of such possibilities was promptly answered by the Tarkio folks with the statement that an area of that size from the Rankin farms could be secured between Fairfax and Tarkio.

For permanent road work in a special district at Tarkio it is proposed to issue $50,000 in bonds, $10,000 of it to be spent in each of five successive years. The question will be put to a vote on Tuesday of next week.

Of the 115 men now enlisted in Company A., of the National Guards at Tarkio, 17 are more than six feet tall.

Accustomed to big figures the folks at Center Grove near Westboro were disappointed with the receipts at the Decoration Day dinner for the cemetery benefit and explained the small sum received as due to the downpour of rain. As it was they took in only $140!

Contracts will be let this week at Rock Port for drainage work on the North Nishnabotna, amounting to 75,000 cubic yards.

Rare distinction, indeed, befell a Rock Port justice of the peace last week, says the Atchison County Mail when Judge Hamilton was given the responsibility of joining in wedlock Simon Legree and Little Eva. And then Terry's Uncle Tom's Cabin company moved on to fresh fields.

The Cameo is a revival of a style that was very fashionable years ago and there is something undescribably dainty about a Brooch of this kind. The work on the Cameo's of years ago, was very crude but the better ones of today show that the work is done by skilled artists.

As a personal adornment it is unsurpassed and you can be satisfied that it will never go out of style.

As a birthday or anniversary remembrance for mother, sister or wife it is ideal. If you want some special design of mounting we have some Cameos unmounted and can supply a mounting to meet your ideas.

COMMUNICATION

Headquarters Army Recruiting Dist.,
Kansas City, Mo., June 5.

To the Editor: I am enclosing herewith a letter to the postmasters of my recruiting district, and it is hoped that you will give publicity to the letter, or at least to these important features of it:

1. The urgent necessity of the postmasters co-operating with the recruiting office in procuring 100,000 recruits as soon as possible.

2. The fact that a man has registered under the provision of the Selective Draft Law is no reason why he cannot and should not enlist in the regular army.

3. That the age limit is from 18 to 40 years.

Very truly yours,
Chas. A. Varnum,
Lt. Col. U. S. A. Retired,
Recruiting Officer.

To the Postmaster:

While I am very much pleased with your splendid co-operation with me in the regular army service, the demand made upon us by the war department of our government makes it necessary for us to increase our efforts and energies to procure the 100,000 recruits needed immediately to fill the 51 regiments of infantry, field artillery, engineers and cavalry now being formed. That you may understand more fully the urgency of this demand I quote the following telegram from the adjutant general of the army:

"Progress recruiting unsatisfactory. Less than fifty per cent war quota regular army obtained in sixty days. Fifty-one new regiments now forming at eighteen stations need one hundred thousand recruits immediately. Valuable time for training and preparations now being lost. Request cooperation of local press and patriotic committees. Speed up recruiting to maximum intensity. After regular army is brought to maximum strength recruiting service will have task of obtaining quota to maintain that strength. Continue without regard to hours." (Signed)

McCain, Adjutant General.

The fact that a man has registered under the provisions of the selective draft law is no reason why he cannot and should not enlist in the regular army. All men between the ages of 18 and 40 years, whether registered or not, may be enlisted in the regular army provided they are physically and otherwise qualified.

At present the coast artillery quartermasters corps, and signal corps are full and men cannot be accepted for these branches of the service.

Very truly yours,
Chas. A. Varnum,
Lt. Col. U. S. A., Retired,
Recruiting Officer.

The Nation's Opportunities.

The greatest activity, industrially and agriculturally ever known, confronts us. The greatest demand for labor, for factory products, for farm products, at the highest prices ever known has become a common place. Without external influences the period 1916 to 1921 was predicted as early as 1912 as the period of greatest commercial expansion the country has ever seen. Add to natural expansion the tremendous stimulation of the war into which we have entered, with seven billions of war orders to be furnished by the United States (and that on top of the wealth which has already come to this country from the war orders of our allies) and we have figures for commercial activity beyond our comprehension.—Ex.

Good Outlook for Business.

Mr. A. W. Shaw, chairman of the commercial economy board of the council of national defense, sees a good outlook for business during the war. He calls attention to the cardinal fact that a successful business depends primarily on the demand for goods and that war is sure to bring about a bigger demand for all kinds of products than the country has ever seen before.

Mr. Shaw's statement is sustained by the experience of Great Britain.

If Great Britain has done so well, then certainly America, whose difficulties will be very much less, can reasonably look forwardto continued prosperity. The same added attention to efficiency methods, co-operating with the wider market, should place and keep American business on a secure foundation during the war.—Ex.

Drug Store Took Heed.

The news that sellers of patent medicines for drinking purposes were liable to conviction and punishment has had a salutary influence on the towns of the county. One man stated that last Sunday was the first Sunday in months that some of the residents of his town had not become intoxicated via the Peruna-Hostetter's-Bitters route.

Forty Years' Success.

For a business to be successful for forty years means a great deal. Among other things, it means remarkable excellence in the products it sells. No inferior article can be sold on a large scale for so many years; and it must not only be good at the outset, but so good that the progress of forty years shall not develop any better article to supercede it.

So women can, with confidence, depend upon that old, tried and tested remedy for woman's ailments, Lydia E Pinkham's Vegetable Compound, still as popular as ever, though it was placed on the market before the centennial year, 1876.

Chillicothe to Buy Bonds.

The Chillicothe city council has voted to purchase for the city liberty bonds of the first issue, in the sum of $10,000. Several cities in the state have decided to co-operate with the government in this manner and many others are expected to take similar steps.—Trenton Republican.

ROOT WILL AID RUSSIA.

Special to The Democrat-Forum.

Washington, June 12.—With the arrival of Elihu Root and the American mission in Petrograd tonight this government looks for immediate effective steps to put the revolutionary government of Russia on a firm footing.

Dr. J. C. Allender, who has been visiting relatives in Boone and Atlantic, Ia., returned to his home last night.

Will Rededicate Baptist Church.

Plans to hold the rededication of the Bethel Baptist church, two miles southwest of Elmo, which has been remodeled, are being made for next Sunday. Special services will be held in the morning and at the noon hour a basket dinner will be served. Following the dinner the Children's day program will be given. Evening services will also be held.

WILLIAM HALL, 77, DIES

Complication of Diseases Fatal to Elmo Man -- Survived by Wife and Two Children.

William Hall, a retired farmer, 77 years old, died yesterday morning at his home following a six weeks' illness of a complication of diseases.

Mr. Hall is survived by his wife and two children, Irvin Hall and Mrs. Emma Bailey, both of Elmo.

Funeral services were held at 2 o'clock this afternoon at the Methodist church, the Rev. Mr. Ragsdale officiating. Burial was in the Blanchard cemetery.

DIES WHILE ON A VISIT

Mrs. Fred Demory of Elmer, Mo., Passes Away at St. Joseph—Burial at Clearmont.

Mrs. Fred Demory of Elmer, Mo., who came to Clearmont several weeks ago to attend the funeral services of her sister, Mrs. Lulu Upton, died at the hospital in St. Joseph last night following an operation. She was taken to the hospital Sunday. She had been in ill health for a month.

The funeral services will be held tomorrow afternoon at 2 o'clock in the M. E. church at Clearmont and the services will be conducted by Rev. Watts, assisted by Rev. Holland. Burial will be in the Clearmont cemetery.

She is survived by her husband, her father, J. T. Kemp, and four brothers, O. D. and Dan Kemp of Clearmont, Everette Kemp of Deering, Mo., Si Kemp of Parsons, Kan., and two sisters, Mrs. Charles Wilson and Mrs. Otho Farmer of Clearmont.

Misfortune befell a Cawood farmer, who started out in an automobile for St. Joseph the other day, says the Savannah Reporter. In a trailer behind his car he hauled two passengers and in an accident one of the hogs was killed — valued at $70, too.

Credit to the old home newspaper—the Savannah Reporter—for printing his boyhood cartoons and encouraging his efforts to become a cartoonist Harry Hartley, now a successful cartoonist at Des Moines ,Ia., is cheerfully given in a recent letter published in that paper.

When two speculative cemetery enterprises were closed out by foreclosure in Daviess county last week a revolution was wrought in the price of burial lots. At Gallatin 340 lots were bid in at a price making it possible for them to be sold at $1 each while the prices set by the promoters of the bursted bubble would have required payments amounting to $12,260. Similar changes were made at Altamont.

The Normal enrollment today is 604.

CUBA OFFERS AID

Well Trained Troops at Service of United States.

PORTS OPEN TO OUR SHIPS.

Will Act if Necessary as Halfway Station to Aid Northern Republic in Transportation of Troops and Munitions to Panama Canal or Other Points on Gulf.

New Orleans.—In addition to declaring war on Germany immediately following the lead of the United States government, Cuba will place 25,000 well trained troops—infantry, cavalry and artillery—at the service of the northern republic for the duration of the war. President Mario G. Menocal has issued an order to this effect, and Colonel Aurelio Hevias, Cuban minister of war, is apportioning these troops and selecting the officers who will accompany them.

First news of this placing of a whole army division of Cuban troops at the orders of the United States was brought to New Orleans by Eduardo R. Mendez, Cuban sugar expert, who has just returned from Havana.

"Cuba entered the great war largely in an effort to show its sincere friend-

PRESIDENT MARIO G. MENOCAL.

ship for the United States," said Mr. Mendez at his home. "The island is the key to the gulf of Mexico and to the Caribbean sea, and by declaring war on Germany Cuba closes all her ports to Germany. More than this, all the ports of Cuba now are open to the United States as a war ally for indefinite periods and for unlimited supplies of all kinds, whereas had Cuba not entered the war American warships would have been subjected to all restrictions of international law as to time of stay and amount of fuel obtainable there.

"In other words, Cuba desires to be the outpost of the United States in the gulf and to act also if necessary as a halfway station to aid the northern republic in its transportation of troops and munitions of war to the Panama canal or to other points on the gulf or on the Caribbean sea. President Menocal has announced officially in Havana that the entire Cuban army of 25,000 men will be placed at the orders of the United States government and will be supplied with officers who speak English as well as Spanish, for service throughout the war. This quota, constituting an entire army division, will be kept to full enlistment by constant recruiting throughout the war, and 25,000 more volunteers will be recruited to take the place in the army of those sent to the front or distributed wherever the United States wishes to use them.

"Announcement also has been made that American warships will aid the Cuban navy in patrolling the waters around the island and such parts of the gulf as may be deemed necessary. The ill timed and badly advised revolution is at an end; General Gomez is a prisoner in Havana, and other revolutionists are being extradited from Haiti, so the full forces of the Cuban government can be turned to the prosecution of the war against Germany."

BRITON ACTS AS GUARD.

Does Patrol Duty In Boston After Militiaman Collapses.

Boston.—A sailor of the British navy maintained a part of the water front patrol here, bearing the rifle of a national guardsman who had collapsed on his post.

The bluejacket, a member of the gun crew of a steamship which was tied up in port, found the guardsman on the wharf where he had fainted. Taking him into a nearby shanty, the sailor telephoned for a doctor, then shouldered the guardsman's rifle and for nearly an hour kept the post in a drizzle of rain until a corporal who encountered him arranged for relief.

Mr. and Mrs. James Ware, ten miles northwest of Maryville announce the birth of a son, born this morning.

Homely Wrinkles

A good substitute for wax for rubbing on the bottoms of irons will be found in the inside wrapper of bar laundry soap. Use in the same way as you do beeswax.

If you lose the screw cap off the oil can take a cork stopper, cut a notch in one side for air and insert it with the notch toward the back to prevent leaking when filling lamps.

Remove iron rust from delicate goods by covering the spot with cream of tartar; twist the cloth to keep the cream of tartar over the spot; put in a saucepan of cold water and heat slowly to boiling point, then rinse well.

When preparing fresh fish for cooking trim off the tail and fins with an old pair of scissors; remove the entire corner containing the fin that is next to the head and carefully scrape off all the white membrane which lines the abdomen, as it is that which gives the bitter taste to fish when cooked.

To invigorate yourself when bathing, put some coarse salt in a jar and pour on just enough water to make a slush—not enough to dissolve the salt. Take it up by handfuls and rub yourself with it, then rinse off with clear water and rub well.

Meat must only be reheated, not recooked. Use good gravy or stock and season well. It is necessary to allow the meat to soak in the gravy or stock before reheating.

Amateur Gardeners Must Not Be Too Ambitious

Plant a garden by all means, but do not make it too big, is the advice of the New York College of Agriculture. It is much better to succeed with a few hundred square feet than to fail with three times as much ground.

The first job is to clean up weeds, stones and rubbish; then liberally apply manure which is at least partially rotted at the rate of about 200 pounds to each 100 square feet. Even more may be used, and fifty pounds to the hundred square feet is better than none. If there is a limited supply put it on liberally as far as it will go, then plant the smaller crops on manured ground and the coarser ones on the unmanured. Street sweepings have great value for improving garden soils.

If manure is not to be had buy an all around fertilizer or a potato fertilizer or a garden fertilizer and apply this at the rate of from three to five pounds for each hundred square feet. It will not take the place of manure, but it will help.

The next task is to spade or plow the land. In plowing, cover the manure or bury it as you spade, being sure that straw does not stick out of the soil above the surface. Do not spade so deeply as to bring up very much of the light colored subsoil. Never plow or spade soil when it is wet or sticky. It should crumble readily as it is turned over.

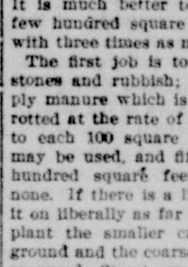
FRIENDSHIP.

To whom can life be worth living who does not repose on the mutual kind feeling of some friend? What can be more delightful than to have one to whom you can speak on all subjects just as to yourself? Where would be the great enjoyment in prosperity if you had not one to rejoice in it equally with yourself?—Cicero.

Light as Chaff

Well Trained.

"Have you ever had any experience in handling high class ware?" asked a dealer in bric-a-brac of an applicant for work.



"No, sir," was the reply, "but I think I can do it."

"Suppose," said the dealer, "you accidentally broke a very valuable porcelain vase. What would you do?"

"I should put it carefully together," replied the man, "and set it where a wealthy customer would be sure to knock it over again."

"Consider yourself engaged," said the dealer. "Now tell me where you learned that trick of the trade."

"A few years ago," answered the other, "I was one of the wealthy customer class."

Ten Dollars Saved.

The chairman of the board of trustees of Bethel church called upon the parson immediately after the meeting and said: "Rev'rend Smith, Ah's got de extreme pleasure to inform you-all dat de board of trustees in meeting assembled dis very evening has done raised yo' honorarium from fifty to sixty dollahs a year per annum."

"Ah refuse to accept it, Brudder Jackson. Ah have trouble enough trying to collect de fifty dollahs."—Country Gentleman.

GARDNER ASKS STATE TO AID.

A Red Cross Week Proclamation Issued by Governor.

Special to The Democrat-Forum.

Jefferson City, June 12.—Governor Gardner issued a proclamation today setting apart the week commencing June 18 as Red Cross Week and calling upon all people of the state to help make up a general Nation-wide fund of 100 million dollars for the relief of the suffering in Europe and for the benefit of the American soldiers who go there.

Captain Cole Was Here.

Capt. O. R. Cole of Kansas City was in Maryville yesterday on his weekly inspection of the Maryville recruiting station. Captain Cole said that forty men have enlisted from this district at Kansas City and St. Joseph. The local recruiting station would make a splendid showing if all of these men would enlist at Maryville.

Celebrates Wrong Day.

One of the most amusing anecdotes in Mary Roberts Rinehart's "Tenting To-night," now running in Cosmopolitan appears in the July number.

"Of all the birthdays I can remember—and I remember quite a few—this one was the most wonderful," she says. "Over the mountain-tops, glowing deep pink as they rose above masses of white clouds, came slowly a great yellow moon. It turned the Flathead beside us to golden glory, and transformed the evergreen thickets into fairy glades of light and shadow. Flickering candles inside the tents made them glow in luminous triangles against their background of forest."

And then, a few days later, she discovered they had celebrated the wrong day! They had been on the trail so long that time meant nothing to them.

No finer or more entertaining travel story has been written in years than this account of an expedition through the Northwestern Rockies.

INJURED IN A FIGHT

LON LYLE KNOCKED UNCONSCIOUS BY FRENCH BROWN.

ENCOUNTER IS NEAR B. J.

Brown In Jail Awaiting Result of Lyle's Injury on Head, Inflicted With Whiskey Bottle.

Lon Lyle, about 30 years old, is lying unconscious at St. Francis hospital with a severely bruised head, and French Brown is in the county jail, where he was brought by Sheriff John F. Dowden, as a result of an encounter which took place about one mile from Burlington Junction between 6 and 8 o'clock last night.

Brown, in a cell in the county jail refused to talk of the circumstances attending the "scuffle" or quarrel or whatever it was, and Lyle has been unable to tell his side of the story. Besides there were only two witnesses, Mr. and Mrs. Earl Walker of near Burlington Junction, who were too far off to hear any words that were spoken.

The two men left Burlington Junction in the Lyle car and at some distance from the town, left the car and started to walk. A scuffle ensued directly in front of the Walker place, during which Lyle fell to the ground, receiving a blow behind the ear. Dr. Hipdman of Burlington Junction was called to the scene and Lyle was brought to town. Shartly afterward, an ambulance from Maryville was called and the injured man was taken to St. Francis hospital. At 3 o'clock this afternoon he had not regained consciousness.

Sheriff Dowden went to the home of French Brown, three and one half miles north of Burlington Junction, and took Brown into custody. He will remain in jail until the extent of Lyle's injuries are known and a complaint is filed against him.

Lon Lyle is the son of Mr. and Mrs. Humphrey Lyle and lives on a farm eleven miles northwest of Maryville. He has a wife and two children, Lon William, 5 years old, and Arthur Verne, 7 months old.

Mr. and Mrs. Earl Walker, who were the witnesses of the quarrel, said that the two men left the car where the road goes down into a sort of hollow and walked up the hill together. When they came in view of the Walker home, Brown was in the lead and Lyle was following. Directly in front of the Walker land, the men met and began to quarrel. The Walkers say that Brown struck Lyle over the head with a whiskey bottle. Brown then called to Mr. Walker to come down and when he arrived, he said, "Isn't this awful? And he was a good friend of mine, too."

Reports circulated freely today that the men had been drinking were unconfirmed by the eye-witnesses of the quarrel.

Late reports from the hospital are to the effect that Lyle is not seriously injured.

ASKS FOR A DIVORCE

Mrs. Estella Clemmons Seeks Separation From Man Arrested for Wife Abandonment and Pandering.

Alleging cruelty, abandonment and adultery, Estella Clemmons of Guilford filed suit for divorce in the circuit clerk's office today, against George Clemmons, who is now in jail, charged with pandering and wife abandonment.

The petition states that the couple were married in Nodaway county, February 2, 1899 and lived together until January 6, 1917. The plaintiff charges that after that time her husband abandoned her and lived with his niece, Nellie Bannister, who is now in the St. Joseph Hospital No. 2.

Mrs. Clemmons asks for a divorce and for the custody of their minor child, now 8 years old.

DECIDE ON TICKET SALE

Chautauqua Executive Committee Will Deliver Tickets to Signers By June 25—Price Up After July 10.

A meeting of the executive committee appointed by the guarantors of the Chautauqua was held at the office of Fred P. Robinson last night. The question of arranging for the disposal of the tickets was discussed. It was decided to deliver the tickets to all those who had signed for them last summer at $1.50 for the season. The delivery would be made by June 25. After July 10 the tickets will be $2.

An order has been made to Kansas City for fifty assorted tents, to be used at Normal Park by those who wish to camp during the Chautauqua. Further plans will be made from time to time.

WILL DECIDE BY SATURDAY.

County Text Book Commission Will Make Choice of Books Soon.

The county text book commission will attempt to come to a decision regarding the choice of text books for the county by Saturday. The members of the commission, Supt. Bert Cooper, Dean G. H. Colbert, and Supt. J. M. McDonald will meet with three text book men in half hour conferences this afternoon. Some contracts will be re-let and others will be renewed.

OBSERVE FLAG DAY

EVERY AMERICAN SHOULD FLY THE FLAG THURSDAY.

ASK STRICT OBSERVANCE

American Flag Association Urges Public Recognition of Emblem On That Day.

Thursday has been designated as Flag Day by the American Flag association, and every American home and business place is supposed to fly the flag on that day.

The association has sent out notices to all of the cities and towns in the country asking that the observance of the Flag be particularly marked on this day. A part of their plea follows:

"In accordance with the custom for the past twenty years, the American Flag association reminds you that Thursday, June 14, 1917, will be the 140th anniversary of the adoption of the stars and stripes, as the Flag of our country. It is a genuine satisfaction that the public recognition of Flag Day as a National anniversary is each year becoming more and more general. Any reminder would seem unnecessary to secure your co-operation in securing the widest possible observance this year.

"In the past and increasingly, every year, the governors of many of the states have, by their proclamations, called public attention to the day and ordered the Flag to be displayed on all public buildings and invited their fellow citizens to celebrate the day. In this year, 1917, we find ourselves at war. The United States is at war for humanity, joining with the other democracies of the world, as also to defend itself in the exercise of its own national rights. Our soldiers and sailors, on the high seas and on foreign lands, allied with all the democracies of the world, are engaged in war with the only remaining despotic governments of the world, insisting upon the rights which belong to the nations and defending our country and our allies against the only remaining despotisms which yet survive the progress of civilization. This year, especially, it behooves us to emphasize the liberty for which our flag stands."

WILL AID FRENCH CHILDREN

National Organization D. A. R. Is Pledged to Provide for 2,000 War Orphans by Means of Tag Sale.

The money obtained by the members of the D. A. R. by the sale of tags on Flag Day, June 14, will be devoted to the relief of the French war orphans. The national organization has received a list of 2,000 French children with addresses and will make an effort to provide for this number by means of the money received on Tag Day.

Mrs. Charles T. Bell, regent of the D. A. R. in Maryville received the following appeal from the national organization, urging the aid of the Maryville chapter in assisting the children:

"No need to paint in vivid colors this picture of France's need of help for her orphan children. No need with eloquence of tongue or pen to echo the cry of these children of France.

"The government of France has proclaimed them its wards, but has been unable on account of its pressing military demands, to make adequate appropriations for their relief. The fathers of these children have fallen in the trenches, or at the front mowed down in charges unparalleled in the annals of war for bravery and heroism. The valor which hurled back the legions of Germany—enroute to Paris for the conquest of the world — our own country a shining mark — is immortal. Future ages will write the Iliad of the Marne and of Flanders. The chivalry of France, springing to arms, dying, gasping in agony from poisoned gases, burnt with liquid fire, slaughtered by every inhuman method the savagery of the beast, reinforced by the devilish ingenuity of man, could invent and inflict."

MERCHANTS INVITED

ALL WILL BE ASKED TO MAKE TRADE WEEK SUCCESS.

WILL PLEDGE A REBATE

Every Person Will Receive So Much A Mile For Their Trip to Maryville At That Time.

Every merchant in Maryville will be given an invitation to co-operate to make Co-operative Week, June 23 to June 30, the very biggest success. It will be a festival of bargains for men, women and children.

The committee in charge of the Trade Event is composed of H. L. Baines, William Montgomery and J. B. Cummins. Although the Maryville Commercial Club is supervising, every merchant, whether a member of the Club or not, may participate. An agreement to follow the plan will be circulated by the committee.

Publicity will be given to Trade Week entirely by the newspapers. The merchants will not be compelled to advertise in both papers; or, for that matter, in either paper, but it is essential for the success of the proposition that those who have goods to offer present them to the public in the best manner possible. In other words, the merchant may advertise as he pleases, the fact that the affair is a Commercial Club enterprise making no restrictions. The only thing asked by those in charge is that the merchants make every effort to put their goods before the public in attractive displays and by special inducements.

As for the customer, the time set for trade week, together with the inducements for trading at this particular time ought to draw people from all over the county and from the surrounding counties. Thus the buyer will have an opportunity to visit friends and relatives in Maryville while taking advantage of the fare refund and the special bargains offered by the stores.

The merchants will pledge themselves to give a rebate of so much a mile to every person who buys merchandise. Attractive cards will be printed with the names of the merchants on them. When the customer has made his purchases he hands his card to the merchant, who sets down the sum spent. When all the purchases have been made the card is taken to the Commercial Club rooms, the sums on the card are totaled, and a rebate is given according to the number of miles traveled.

It is not necessary to come on the train in order to get the benefit of the refund. Any kind of conveyance will be considered, or else the person can walk. The postoffice address is taken, the number of miles from Maryville is calculated and the refund is made.

The idea of trade week will be taken up enthusiastically throughout the country, because of the time at which it is to be held, and also because of the numerous bargains that will be offered by the merchants who are going to get in on the sales of trade week.

RING BELLS FOR BONDS

The Women's Liberty Loan Committee Would Note Last Three Days For Liberty Loan Purchase.

Only three days more to subscribe for a liberty bond for the good of your country.

This fact will be brought before the people of Missouri in a unique way if the plans of Mrs. W. G. McAdoo, chairman of the Women's Liberty Loan committee are carried out in all the towns of the state.

Mrs. McAdoo plans to have all of the bells in each town and city rung at 9 o'clock Tuesday, Wednesday and Thursday evenings. She wants them tolled three times on Tuesday, two on Wednesday and one on Thursday, representing the numbers of days left in which to buy liberty bonds. The significance of the Liberty bells ringing in every city, town and village is to serve as a challenge to Americans of today sent down by the lovers of liberty, who signed the Declaration of Independence.

TO INCREASE FREIGHT RATES

L. E. Mercer, Wabash Freight Agent, Says 15 Per Cent Addition Will Be Made July 1.

L. E. Mercer, traveling freight agent of the Wabash at Omaha, is calling upon the merchants of the city today in regard to the increase in freight rates which will go in effect July 1. This increase will amount to 15 per cent and Mr. Mercer says that railroad men have ascertained within the last few weeks that the 15 per cent rate increase asked for will be barely sufficient, if not, in fact, insufficient, to their present necessities.

Espionage Measure Shorn of Its Censorship Features Ready for Wilson Today.

Special to The Democrat-Forum.

Washington, June 12.—The United States is surely going on the water wagon. Whether it will stay for a longer period than during the war depends upon how it likes the experience. But a careful canvass of the entire membership of both houses today demonstrated positively that the "dry" element was in control. Their slogan, "No food stuffs for intoxicants" is winning converts every day.

BOTH SIDES ARE IN RAIDS

British Enter German Trenches at Neuve Chappelle — Teutons Retaliate.

Special to The Democrat-Forum.

London, June 12.—There was intense raiding activity during the night in northern France and Belgium, the war office announced today. The British conducted a successful raid in Neuve Chappelle. The German trenches were entered and much damage was inflicted. The Germans retaliated with raiding activities near Neuve Chappelle, Armentieres and Ypres.

Paris, June 12.—Artillery thundered all night along the valley of the Aisne river and throughout the Champagne district. The war office today said heavy engagements with big guns were in progress upon California plateau on the North bank of Aisne and along the Champagne front. The artillery fighting is believed to be a prelude to infantry assaults.

Austrians Defeated.

Rome, June 12.—The attempted counter offensive of the Austrians has broken down says a Udine dispatch. The Austrians have massed 150,000 men but are unable to make headway against the strong Italian positions.

Italian Offensive Checked.

Vienna, June 12.—The Italian offensive in Trentino was undertaken separately from that along the Izonso river has been checked, according to the war office.

MONEY NOT TIED UP.

There seems to be an idea held by some that money invested in a Liberty Loan Bond is going to be tied up for fifteen or thirty years. This belief is not warranted. Probably no property in the world outside of actual money or currency will have a wider and more ready and constant cash market than the Liberty Loan Bond.

There will be a constant demand made for them from many sources. They are good security for loans from the Federal reserve banks; courts have decided that they are legal and proper investments for trust funds; they are legal investments for insurance companies and other corporations whose investments are supervised and regulated by law; their international character (being used for an international purpose and guaranteed in part by our European allies) gives them an international status and market. They will be sought for in India, in Egypt, Japan and Russia, England and France, Italy and Austria, and in fact, wherever any Government bond has a market.

They have been truly called the premier security of the world.—Ex.

DUBINSKY BOYS PLAY

Ed and Barney Make Only Summer Appearance in "The Messenger Boy," Tonight.

Ed and Barney Dubinsky will be seen in the two roles of "Brit" and "Two Penny" respectively in their famous success, "A Messenger Boy," supported by the entire Dubinsky Stock company at the big tent tonight.

This is the only appearance of Ed and Barney during the entire summer, as neither appears in any of the Dubinsky summer road shows. So Maryville will be the only town to see these clever boys outside of going to St. Joseph, where one can see them work at the Tootle during the winter season. "A Messenger Boy" is one of those all-round plays that appeals to everyone. As usual the vaudeville specialties will be changed between the acts.

HORSEBACK; SLOW TRAVELING.

Judge George Hepburn Uses Four Hours to Get to Maryville

Judge George Hepburn who came to Maryville today to attend a meeting of the county court rode in on horseback from his farm near Hopkins. He left his home about five o'clock and arrived here four hours later. Judge Hepburn said this was a mighty slow way of traveling, as he is used to riding in his car. When Judge Hepburn was in Maryville last Monday he could not return home in his car or by train on account of the high water and he had to get home the next day as he was registrar of North Independence township. He secured a horse from his brother-in-law, George Fred Davis, and passed over the river just a short time before the big rise came. He returned the horse to Mr. Davis today.

REJECT DORMITORY BIDS

Authorities Decide to Wait Until Next Spring Before Calling Again —Four Put in Bids.

For the second time this spring the bids for the building of the new dormitory at the State Normal School were rejected. Martin Borrusch, Lincoln Bent and M. Hahn were the Maryville bidders and Charles P. Norris of St. Joseph put in a bid also.

The four bids ranged from $25,000 to $29,000 approximately. As the authorities had not contemplated spending so much money on the building, they have decided to wait until next spring and then call for bids again.

NEWS FROM ALL NORTHWEST MISSOURI

Though the lightning during one of last week's storms killed the cow he was milking and another close by, George Campbell of Spickard, has regained consciousness after remaining dazed for twelve hours and will entirely recover from his strange and severe injury.

Dollars—silver dollars—undoubtedly saved the life of Wm. Woodruff, near Cainsville as the News reports. The team with which Woodruff was plowing became entangled in the harness and when he attempted to adjust matters he was knocked down and the plow was drawn upon him. The sharp point of the plow came squarely against Woodruff's hip but was prevented from penetrating his body by several silver dollars that were in a small purse in his pocket. The plow glanced off and was drawn across the man's arm, severing one bone of the forearm and cutting a long gash.

A scarcity of school teachers appears imminent in Mercer county, according to the Princeton Post. There is a marked falling off in the number of applicants for certificates.

Several boats were used to transport men across the swollen streams in Mercer county in order that they might reach the registration points on June 5.

When a bottle of alcohol was broken in the pocket of James Vance at Unionville the liquid drenched his clothing and ran down upon the ground. Someone — just for fun — touched a match to the pool of alcohol on the ground, the flames leaped at once to the soaked clothing of Vance and quickly enveloped him. Only quick assistance saved him from a terrible death and even yet his life is in danger, says the Journal.

Raising a mushroom 9 inches high and 12 inches in circumference is an unusual and worthy accomplishment but that is the size of a mushroom which J. Arch McMaster is credited by the Hopkins Journal with having raised from his garden the other morning.

Last week Walter Garrard sold 653 bushels of corn for $1,008.25. He bought a new $75 wagon and it took just 42½ bushels of the corn to pay for it. Twenty years ago he bought at $50 wagon and to pay for it he hauled 344 bushels of corn at 16 cents a bushel. Is Mr. Garrard hollering hard times? He is not.—Sheridan Advance.

While watching the antics of a swollen stream during the storm of last week, Mrs. Miller Wilson near Bethany was knocked to the ground by a stroke of lightning. She soon recovered consciousness and was not seriously hurt. The same bolt of lightning, says the Bethany Republican, did a strange thing by ripping the shingles off a nearby roof in such a manner as to form a large and perfect letter "U."

Unusual thrills for a single day were provided the residents of Bethany on Monday of last week, says the Republican, for there occurred a dog fight, a man fight, a flood and lastly a bolt of lightning struck a woman and a barn.

A contest for the same nest is said to be going on between a guinea fowl and a quail on the John Canaday farm near Eogleville. The Bethany Republican states that when Mr. Canaday removed the straw mulching from his strawberries he piled it in small piles and that recently in one of these he found a guinea egg. The next day it contained also a quail nest and at last report there were four guinea eggs and four quail eggs in the nest and Mr. Canaday is awaiting the outcome—when quail and guinea decide to sit.

Lightning removed a faithful and generous worker from the Eagleville community last week when it killed Bob Hutcheroft. Besides six children of his own, Hutcheroft and his wife were caring for the seven children of a brother who died last fall.

Al and Si are the Gold Dust Twins of the farmer—Alfalfa and Silo on every farm.—Jewell Mayes' Brass Bullets.

Of the four persons killed by the tornado near Richmond last week three were carried more than 500 yards from the house in which they were when the storm struck, and not an armful of timber was left of the building. The path of the storm, marked terribly by desolation is about 100 yards wide, says the Richmond Missourian. At one point a 30-foot steel bridge was picked up and carried some distance. At another place a two-acre orchard was completely torn out by the roots, not one tree being left. This storm occurred on June 5 and it was on June 3 just 39 years ago that death was visited upon several persons near Richmond by a similar storm.

Though their recent bond election authorized only $35,000 of indebtedness, the Maysville school board last week let the contract for their splendid new school building at $42,467, and will probably order another bond election soon.

As soon as fully equipped with a pump the new town well at Maysville was put to a performance test. For five hours the pump was run at full speed lifting 760 gallons an hour. At that the well did not appear to have lost any of its visible supply of water so it was pronounced O. K.

That times are changing for the better no one will doubt after reading this old announcement clipped from a Holden publication of 1849: "The undersigned will sell at public outcry for cash on premises where Cook Creek crosses on the Missouri Road, the following chattels, to-wit: Nine yoke of oxen with yoke and chain; two wagons with beds; three nigger wenches; four buck niggers; three nigger boys; two prairie plows; twenty-five steel traps; one spinning wheel; loom; three fox-hounds; a lot of coon, mink, and skunk skins and a lot of other articles. Am gwine to California."

Two pigs, a year and two weeks of age, and weighing 410 pounds each, were sold at Maysville the other day by George Taylor for $154. Taylor is supported by the DeKalb County Herald in the belief that, for their age, these pigs did right well.

A camp site of 10,000 acres extent has been offered the U. S. Army by the boosters of Tarkio. That camp sites of that extent are almost impossible to secure in the thickly settled districts of the Middle West is correctly observed by the Tarkio Avalanche. An inquiry from the War Department for a location of such possibilities was promptly answered by the Tarkio folks with the statement that an area of that size from the Rankin farms could be secured between Fairfax and Tarkio.

For permanent road work in a special district at Tarkio it is proposed to issue $50,000 in bonds, $10,000 of it to be spent in each of five successive years. The question will be put to a vote on Tuesday of next week.

Of the 115 men now enlisted in Company A., of the National Guards at Tarkio, 17 are more than six feet tall.

Accustomed to big figures the folks at Center Grove near Westboro were disappointed with the receipts at the Decoration Day dinner for the cemetery benefit and explained the small sum received as due to the downpour of rain. As it was they took in only $140!

Contracts will be let this week at Rock Port for drainage work on the North Nishnabotna, amounting to 75,000 cubic yards.

Rare distinction, indeed, befell a Rock Port justice of the peace last week, says the Atchison County Mail when Judge Hamilton was given the responsibility of joining in wedlock Simon Legree and Little Eva. And then Terry's Uncle Tom's Cabin company moved on to fresh fields.

COMMUNICATION

Headquarters Army Recruiting Dist.,
Kansas City, Mo., June 5.

To the Editor: I am enclosing herewith a letter to the postmasters of my recruiting district, and it is hoped that you will give publicity to the letter, or at least to these important features of it:

1. The urgent necessity of the postmasters co-operating with the recruiting office in procuring 100,000 recruits as soon as possible.

2. The fact that a man has registered under the provision of the Selective Draft Law is no reason why he cannot and should not enlist in the regular army.

3. That the age limit is from 18 to 40 years.

Very truly yours,
Chas. A. Varnum,
Lt. Col. U. S. A. Retired,
Recruiting Officer.

To the Postmaster:

While I am very much pleased with your splendid co-operation with me in the regular army service, the demand made upon us by the war department of our government makes it necessary for us to increase our efforts and energies to procure the 100,000 recruits needed immediately to fill the 51 regiments of infantry, field artillery, engineers and cavalry now being formed. That you may understand more fully the urgency of this demand I quote the following telegram from the adjutant general of the army:

"Progress recruiting unsatisfactory. Less than fifty per cent war quota regular army obtained in sixty days. Fifty-one new regiments now forming at eighteen stations need one hundred thousand recruits immediately. Valuable time for training and preparations now being lost. Request cooperation of local press and patriotic committees. Speed up recruiting to maximum intensity. After regular army is brought to maximum strength recruiting service will have task of obtaining quota to maintain that strength. Continue without regard to hours." (Signed)

McCain, Adjutant General.

The fact that a man has registered under the provisions of the selective draft law is no reason why he cannot and should not enlist in the regular army. All men between the ages of 18 and 40 years, whether registered or not, may be enlisted in the regular army provided they are physically and otherwise qualified.

At present the coast artillery quartermasters corps, and signal corps are full and men cannot be accepted for these branches of the service.

Very truly yours,
Chas. A. Varnum,
Lt. Col. U. S. A., Retired,
Recruiting Officer.

The Nation's Opportunities.

The greatest activity, industrially and agriculturally ever known, confronts us. The greatest demand for labor, for factory products, for farm products, at the highest prices ever known has become a common place. Without external influences the period 1916 to 1921 was predicted as early as 1912 as the period of greatest commercial expansion the country has ever seen. Add to natural expansion the tremendous stimulation of the war into which we have entered, with seven billions of war orders to be furnished by the United States (and that on top of the wealth which has already come to this country from the war orders of our allies) and we have figures for commercial activity beyond our comprehension.—Ex.

Train Service Resumed.

The Burlington service is entirely resumed, according to the station agent today. The Wabash will have all of its trains running by tomorrow.

Good Outlook for Business.

Mr. A. W. Shaw, chairman of the commercial economy board of the council of national defense, sees a good outlook for business during the war. He calls attention to the cardinal fact that a successful business depends primarily on the demand for goods and that war is sure to bring about a bigger demand for all kinds of products than the country has ever seen before.

Mr. Shaw's statement is sustained by the experience of Great Britain.

If Great Britain has done so well, then certainly America, whose difficulties will be very much less, can reasonably look forwardto continued prosperity. The same added attention to efficiency methods, co-operating with the wider market, should place and keep American business on a secure foundation during the war.—Ex.

Drug Store Took Heed.

The news that sellers of patent medicines for drinking purposes were liable to conviction and punishment has had a salutary influence on the towns of the county. One man stated that last Sunday was the first Sunday in months that some of the residents of his town had not become intoxicated via the Peruna-Hostetter's-Bitters route.

Forty Years' Success.

For a business to be successful for forty years means a great deal. Among other things, it means remarkable excellence in the products it sells. No inferior article can be sold on a large scale for so many years; and it must not only be good at the outset, but so good that the progress of forty years shall not develop any better article to supercede it.

So women can, with confidence, depend upon that old, tried and tested remedy for woman's ailments, Lydia E. Pinkham's Vegetable Compound, still as popular as ever, though it was placed on the market before the centennial year, 1876.

Chillicothe to Buy Bonds.

The Chillicothe city council has voted to purchase for the city liberty bonds of the first issue, in the sum of $10,000. Several cities in the state have decided to co-operate with the government in this manner and many others are expected to take similar steps.—Trenton Republican.

On Six Weeks' Camping Trip.

Theodore Logan and Dr. P. E. Hood of Parnell and James Murphy of Maryville left this morning in a car on a hunting and fishing trip through Iowa, South Dakota, Wyoming, Montana, Colorado and Kansas. They took with them a camping outfit and will camp out the six weeks they expect to be gone.

Audrey Flannigan Still Unconscious.

Audrey Flannigan of Parnell, who was injured more than a week ago, while visiting at the Levi Lyle farm, is still reported unimproved. He has never regained consciousness.

Spend Summer at Bent's.

Mrs. James Claude Baird and small daughter, Enid Maurine, of Chicago, are in Maryville to spend the summer months with Mrs. Baird's parents, Mr. and Mrs. Lincoln Bent.

Miss Marie Davenport will leave tomorrow for Bismarck, N. D., where she will visit for several months with her sister, Mrs. E. D. Miller. Miss Davenport also has a position in a store in Bismarck.

The first problem is to select good tires, take care of them and to get them repaired when needed. When something happens and your tires do go wrong, the next thing is to have them REPAIRED RIGHT.

We have the BEST EQUIPPED tire repair shop in Northwest Missouri and the only re-treading machine.

Do not be mis-led into believing that SEWING TIRES TOGETHER is re-treading. Sewing tires is a harness maker's job—not a tire man's. We will be honest with you—if your tire is not worth repairing, we will tell you. Our eleven years experience should place us in a position to know.

ROOT WILL AID RUSSIA.

Special to The Democrat-Forum.

Washington, June 12.—With the arrival of Elihu Root and the American mission in Petrograd tonight this government looks for immediate effective steps to put the revolutionary government of Russia on a firm footing.

Dr. J. C. Allender, who has been visiting relatives in Boone and Atlantic, Ia., returned to his home last night.

Mrs. L. W. Harsh of Hopkins underwent an operation this morning at the St. Francis hospital.

Mr. and Mrs. Warren Jones and family are visiting for a few days with Mrs. Jones' sister, Mrs. Hattie Gladfelter of Quitman.

Will Rededicate Baptist Church.

Plans to hold the rededication of the Bethel Baptist church, two miles southwest of Elmo, which has been remodeled, are being made for next Sunday. Special services will be held in the morning and at the noon hour a basket dinner will be served. Following the dinner the Children's day program will be given. Evening services will also be held.

WILLIAM HALL, 77, DIES

Complication of Diseases Fatal to Elmo Man — Survived by Wife and Two Children.

William Hall, a retired farmer, 77 years old, died yesterday morning at his home following a six weeks' illness of a complication of diseases.

Mr. Hall is survived by his wife and two children, Irvin Hall and Mrs. Emma Bailey, both of Elmo.

Funeral services were held at 2 o'clock this afternoon at the Methodist church, the Rev. Mr. Ragsdale officiating. Burial was in the Blanchard cemetery.

DIES WHILE ON A VISIT

Mrs. Fred Demory of Elmer, Mo., Passes Away at St. Joseph—Burial at Clearmont.

Mrs. Fred Demory of Elmer, Mo., who came to Clearmont several weeks ago to attend the funeral services of her sister, Mrs. Lulu Upton, died at the hospital in St. Joseph last night following an operation. She was taken to the hospital Sunday. She had been in ill health for a month.

The funeral services will be held tomorrow afternoon at 2 o'clock in the M. E. church at Clearmont and the services will be conducted by Rev. Watts, assisted by Rev. Holland. Burial will be in the Clearmont cemetery.

She is survived by her husband, her father, J. T. Kemp, and four brothers, O. D. and Dan Kemp of Clearmont, Everette Kemp of Deering, Mo., Si Kemp of Parsons, Kan., and two sisters, Mrs. Charles Wilson and Mrs. Otho Farmer of Clearmont.

Misfortune befell a Cawood farmer, who started out in an automobile for St. Joseph the other day, says the Savannah Reporter. In a trailer behind his car he hauled two passengers and in an accident one of the hogs was killed — valued at $70, too.

Credit to the old home newspaper—the Savannah Reporter—for printing his boyhood cartoons and encouraging his efforts to become a cartoonist Harry Hartley, now a successful cartoonist at Des Moines ,Ia., is cheerfully given in a recent letter published in that paper.

When two speculative cemetery enterprises were closed out by foreclosure in Daviess county last week a revolution was wrought in the price of burial lots. At Gallatin 340 lots were bid in at a price making it possible for them to be sold at $1 each while the prices set by the promoters of the bursted bubble would have required payments amounting to $12,260. Similar changes were made at Altamont.

The Normal enrollment today is 604.

CUBA OFFERS AID

Well Trained Troops at Service of United States.

PORTS OPEN TO OUR SHIPS.

Will Act if Necessary as Halfway Station to Aid Northern Republic in Transportation of Troops and Munitions to Panama Canal or Other Points on Gulf.

New Orleans.—In addition to declaring war on Germany immediately following the lead of the United States government, Cuba will place 25,000 well trained troops—infantry, cavalry and artillery—at the service of the northern republic for the duration of the war. President Mario G. Menocal has issued an order to this effect, and Colonel Aurello Hevias, Cuban minister of war, is apportioning these troops and selecting the officers who will accompany them.

First news of this placing of a whole army division of Cuban troops at the orders of the United States was brought to New Orleans by Eduardo R. Mendez, Cuban sugar expert, who has just returned from Havana.

"Cuba entered the great war largely in an effort to show its sincere friend-

ship for the United States," said Mr. Mendez at his home. "The island is the key to the gulf of Mexico and to the Caribbean sea, and by declaring war on Germany Cuba closes all her ports to Germany. More than this, all the ports of Cuba now are open to the United States as a war ally for indefinite periods and for unlimited supplies of all kinds, whereas had Cuba not entered the war American warships would have been subjected to all restrictions of international law as to time of stay and amount of fuel obtainable there.

"In other words, Cuba desires to be the outpost of the United States in the gulf and to act also if necessary as a halfway station to aid the northern republic in its transportation of troops and munitions of war to the Panama canal or to other points on the gulf or on the Caribbean sea. President Menocal has announced officially in Havana that the entire Cuban army of 25,000 men will be placed at the orders of the United States government and will be supplied with officers who speak English as well as Spanish, for service throughout the war. This quota, constituting an entire army division, will be kept to full enlistment by constant recruiting throughout the war, and 25,000 more volunteers will be recruited to take the place in the army of those sent to the front or distributed wherever the United States wishes to use them.

"Announcement also has been made that American warships will aid the Cuban navy in patrolling the waters around the island and such parts of the gulf as may be deemed necessary. The ill timed and badly advised revolution is at an end; General Gomez is a prisoner in Havana, and other revolutionists are being extradited from Haiti, so the full forces of the Cuban government can be turned to the prosecution of the war against Germany."

BRITON ACTS AS GUARD.

Does Patrol Duty In Boston After Militiaman Collapses.

Boston.—A sailor of the British navy maintained a part of the water front patrol here, bearing the rifle of a national guardsman who had collapsed on his post.

The bluejacket, a member of the gun crew of a steamship which was tied up in port, found the guardsman on the wharf where he had fainted. Taking him into a nearby shanty, the sailor telephoned for a doctor, then shouldered the guardsman's rifle and for nearly an hour kept the post in a drizzle of rain until a corporal who encountered him arranged for relief.

Homely Wrinkles

A good substitute for wax for rubbing on the bottoms of irons will be found in the inside wrapper of bar laundry soap. Use in the same way as you do beeswax.

If you lose the screw cap off the oil can take a cork stopper, cut a notch in one side for air and insert it with the notch toward the back to prevent leaking when filling lamps.

Remove iron rust from delicate goods by covering the spot with cream of tartar; twist the cloth to keep the cream of tartar over the spot; put in a saucepan of cold water and heat slowly to boiling point, then rinse well.

When preparing fresh fish for cooking trim off the tail and fins with an old pair of scissors; remove the entire corner containing the fin that is next to the head and carefully scrape off all the white membrane which lines the abdomen, as it is that which gives the bitter taste to fish when cooked.

To invigorate yourself when bathing, put some coarse salt in a jar and pour on just enough water to make a slush—not enough to dissolve the salt. Take it up by handfuls and rub yourself with it, then rinse off with clear water and rub well.

Meat must only be reheated, not recooked. Use good gravy or stock and season well. It is necessary to allow the meat to soak in the gravy or stock before reheating.

Amateur Gardeners Must Not Be Too Ambitious

Plant a garden by all means, but do not make it too big, is the advice of the New York College of Agriculture. It is much better to succeed with a few hundred square feet than to fail with three times as much ground.

The first job is to clean up weeds, stones and rubbish; then liberally apply manure which is at least partially rotted at the rate of about 200 pounds to each 100 square feet. Even more may be used, and fifty pounds to the hundred square feet is better than none. If there is a limited supply put it on liberally as far as it will go, then plant the smaller crops on manured ground and the coarser ones on the unmanured. Street sweepings have great value for improving garden soils.

If manure is not to be had buy an all around fertilizer or a potato fertilizer or a garden fertilizer and apply this at the rate of from three to five pounds for each hundred square feet. It will not take the place of manure, but it will help.

The next task is to spade or plow the land. In plowing, cover the manure or bury it as you spade, being sure that straw does not stick out of the soil above the surface. Do not spade so deeply as to bring up very much of the light colored subsoil. Never plow or spade soil when it is wet or sticky. It should crumble readily as it is turned over.

FRIENDSHIP.

To whom can life be worth living who does not repose on the mutual kind feeling of some friend? What can be more delightful than to have one to whom you can speak on all subjects just as to yourself? Where would be the great enjoyment in prosperity if you had not one to rejoice in it equally with yourself?—Cicero.

Light as Chaff

Well Trained.

"Have you ever had any experience in handling high class ware?" asked a dealer in bric-a-brac of an applicant for work.

"No, sir," was the reply, "but I think I can do it."

"Suppose," said the dealer, "you accidentally broke a very valuable porcelain vase. What would you do?"

"I should put it carefully together," replied the man, "and set it where a wealthy customer would be sure to knock it over again."

"Consider yourself engaged," said the dealer. "Now tell me where you learned that trick of the trade."

"A few years ago," answered the other, "I was one of the wealthy customer class."

Ten Dollars Saved.

The chairman of the board of trustees of Bethel church called upon the parson immediately after the meeting and said: "Rev'rend Smith, Ah's got de extreme pleasure to inform you-all dat de board of trustees in meeting assembled dis very evening has done raised yo' honorarium from fifty to sixty dollahs a year per annum."

"Ah refuse to accept it, Brudder Jackson. Ah have trouble enough trying to collect de fifty dollahs."—Country Gentleman.

Celebrates Wrong Day.

One of the most amusing anecdotes in Mary Roberts Rinehart's "Tenting To-night," now running in Cosmopolitan appears in the July number.

"Of all the birthdays I can remember—and I remember quite a few—this one was the most wonderful," she says. "Over the mountain-tops, glowing deep pink as they rose above masses of white clouds, came slowly a great yellow moon. It turned the Flathead beside us to golden glory, and transformed the evergreen thickets into fairy glades of light and shadow. Flickering candles inside the tents made them glow in luminous triangles against their background of forest."

And then, a few days later, she discovered they had celebrated the wrong day! They had been on the trail so long that time meant nothing to them.

No finer or more entertaining travel story has been written in years than this account of an expedition through the Northwestern Rockies.
